

# Wall-Mounted Heat Pump

Series: FH - MSZ

## Wall-mounted luxury.

All the performance features of the MSZ-FH wall-mounted units have been completely redesigned. Already impressive, the performances of this range have been further improved.

The wall-mounted MSZ-FH is equipped with the 3D I See Sensor, which detects the presence of a person and can locate him/her in a determined space. Its infrared radiation measures the temperature from distant positions. It includes eight detectors which, thanks to their left-to-right horizontal movement, can analyze the room temperature in 3D. This allows the system to even the temperature and avoid cold zones.
