

# Wall-Mounted Heat Pump

Series: Lomo - 23

**Quality from the factory to your home.**

Lomo 23 adapts to the extreme conditions of our Canadian climate, especially during periods of intense cold. It offers cozy comfort for temperatures as low as -25°C, without compromising on performance and, above all, your well-being.

Gree equips the Lomo 23 outdoor unit with a base that has a heating element that prevents frost and ensures full efficiency and maximum heating power.

The Lomo series is both aesthetic and affordable for your comfort needs.

Model	Power	Seer	HSPF	Db	H (in)	W (in)	D (in)
Ext. GWH09QC-D3DNA1DO	9000 BTU	23	10.50	53	21-1/4	33-2/5	12-3/5
Int. GWH09QC-D3DNA5D				39 - 49	11-3/8	33-1/4	8-2/9

Int. GWH24QE-D3DNA5D				36 - 48	12-4/5	42-4/9	9-2/3

\* Performance results from manufacturer leaflets

Most wall-mounted heat pumps operate on fixed speed, which causes frequent shutdowns and restarts and, consequently, unnecessary energy costs. The recently patented G10 Inverter technology allows you to reach the desired room temperature faster, while reducing your energy consumption.
